Verse 1 G D  
Summer nights and I feel the mountain air

Em  
While we look outside and stare

I can smell your flowing hair

G D  
The last night on a getaway for two

Em  
I've got my hands all over you

C  
While we're taking in the view

Chorus

G C  
We were looking at fireflies flickering on the mountainside

Em D C  
Hold your body next to mine in the summertime, the summertime

G C  
Electric in the fading light. You wrap your arms around me tight

Em D C  
Making love in the summertime, the summertime, the summertime
